NCCS statement on Availability of Condoms from Health Center at World Scout Jamboree

The National Catholic Committee on Scouting (NCCS) is very aware of the concerns regarding the availability of condoms at the World Scout Jamboree (WSJ). NCCS is strongly morally opposed to the distribution of condoms and have expressed our concerns to the Boy Scouts of America, specifically to the Chief Scout Executive. We are awaiting his response.

Parents who are concerned about this matter have the right and freedom to make the decision for their son or daughter to attend or not attend the World Scout Jamboree.
